Akukho mthethweni ukusika
uphondo loMkhombe.
It is illegal to cut off
a Rhino's horn.

6

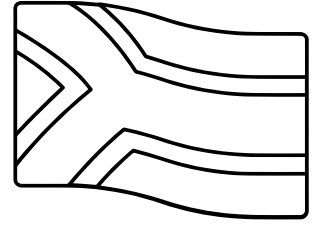

Kushiyeke imikhombe
embalwa.
There are only a few
Rhinos left.

FAKA UMBALA KULONWABO! COLOUR IN FOR FUN!

Imveku yomkhombe ebizwa ngokuba nguHope.

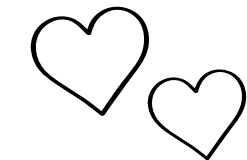

A baby rhino called Hope.

On a hot December day in the veld in South Africa, a mother rhino gave birth to a baby rhino and she called him "Themba" (Hope). Themba's father took care of his family and their love was strong and their future bright.

One day as the rhino family were grazing grass, they heard the sound of poachers and ran as fast as they could to protect Themba. Together they hid behind thick thorn trees and were lucky to survive.

Poachers kill rhinos for other greedy people who think rhino horns are a cure for diseases and they like how pretty the horns look. Learn about rhinos and help save our precious rhinos!
